# 1 Theoretical Problems

## 1.1 Part 1.

### 1.1.1 Question

1. Your company has been granted a contract to develop the next generation of electronic cigarette, also known as a “nicotine delivery system,” and you have been assigned to the design team. Can you in good conscience contribute your expertise to this project? Write in details: issues, stakeholders, consequences action you might take
2. Choose **one** of the following industries then:
  - a. Apply the four-step ethical decision-making procedure to gain insight into the nature of the decision to be made  
(what the issue and who is effected by the alterntives, alternatives from other prespectives and their correlation, suggest an action)
  - b. Give at least one more ethical issue in the indutry you choose

### 1.1.2 Solution

1. (a) Step 1: Identify and see if there is a problem, and if there is who is affected by it.
  - Nicotine is very addictive and detrimental for your body.
  - This device / product might misdirect a lot of people into thinking that it will help them to stop smoking while in reality it could be worse.
